PROFESSIONAL SUMMARY

PHP Laravel Developer with 8 years of experience developing, customizing, and maintaining web applications and ERP systems. Strong expertise in Core PHP, Laravel framework, REST API development, API integrations, and MySQL database design. Experienced in gathering client requirements and translating business needs into scalable technical solutions across enterprise modules including sales, purchase, inventory, production, design, and job work. Skilled in third-party API integrations, GST-compliant E-Invoice and E-Way Bill systems, report generation, and application performance optimization.

TECHNICAL SKILLS

- **Backend:** PHP, Laravel, MVC Architecture, RESTful API Development, Eloquent ORM, Middleware, Authentication, API Integration
- **Frontend:** HTML5, CSS3, JavaScript, AJAX, Bootstrap, jQuery, DataTables
- **Database:** MySQL, Database Design, Stored Procedures, Indexing, Query Optimization, Data Modeling
- **Tools & Libraries:** Postman, TCPDF, PhpSpreadsheet, GuzzleHttp, Endroid QR Code
- **Version Control:** Git, GitHub
- **AI-Assisted Development Tools:** ChatGPT, Codex, Google Antigravity, Perplexity AI
- **Integrations:** REST APIs, E-Invoice & E-Way Bill APIs, Third-Party APIs, Email (SMTP), SMS Gateway Integration

WORK EXPERIENCE

Software Developer

Vascorp Softwares, Satara — *Jan 2019 – Dec 2025*

- Customized and enhanced Laravel-based ERP systems covering Admin, Design, Sales, Purchase, Production, Store & Inventory, Accounts, and Job Work modules.
- Gathered client requirements, analyzed business needs, and converted them into scalable technical solutions.
- Designed and customized responsive UI components, improving usability and reducing manual errors.
- Developed complete GST-compliant E-Invoice and E-Way Bill integration using APIs and JSON.
- Implemented a license lock system to control software usage and improve product security.
- Built dynamic PDF reports and invoices using TCPDF with QR code generation.
- Created Excel and CSV export reports using PhpSpreadsheet for business reporting and data analysis.
- Automated email notifications using Gmail SMTP, reducing manual communication effort.
- Designed and optimized MySQL database structures to ensure fast data retrieval and scalable system performance.
- Built backend logic for data validation, calculations, workflow automation, and system process handling.
- Improved application performance by implementing caching and query optimization, reducing report load time by 40%.
- Implemented secure authentication, session management, and file handling mechanisms within Laravel applications.
- Implemented RESTful API integrations using GuzzleHttp for GST-compliant E-Invoice and E-Way Bill generation and validation.
- Implemented AJAX and jQuery for dynamic data loading to improve frontend responsiveness.
- Deployed and maintained web applications on cloud servers and production environments.
- Provided technical support, debugging, and production issue resolution.
- Mentored and supported team members by solving technical issues and reviewing code.
- Maintained and enhanced existing ERP modules by fixing bugs and implementing feature customizations.

Software Developer

Aquillasoft Software Solution, Satara — *Sept 2018 – Dec 2018*

- Contributed to the development of a Hospital Management System using PHP and MySQL to streamline patient records and billing processes.
- Developed and maintained CRUD operations for managing patient, doctor, and appointment data.

- Assisted in backend development, writing optimized MySQL queries for data storage and retrieval.
- Designed basic user interface screens and implemented input validation to ensure accurate data entry.
- Supported testing and debugging activities to improve system stability and performance.
- Collaborated with team members to resolve technical issues and enhance overall application reliability.

Trainee Software Developer

Satara IT Solution Pvt. Ltd., Satara — Jun 2018 – Aug 2018

- Contributed to the development of a Marriage Bureau web application using PHP and MySQL to manage client profiles and matchmaking records.
- Developed CRUD functionality for profile creation, updates, and search operations.
- Assisted in building backend modules for user registration, authentication, and admin panel management.
- Designed user-friendly data entry and search forms to improve usability.
- Implemented input validation, basic security checks, and error handling to ensure data accuracy.
- Supported testing and deployment activities to ensure smooth application launch.
- Deployed and managed the application in a cPanel hosting environment.
- Assisted in managing product data for an eCommerce module, including inventory updates and pricing maintenance.
- Supported SMS notification integration for customer alerts using a third-party SMS gateway API.

Project Intern

Mythos Technology, Satara — Dec 2017 – May 2018

- Completed a 6-month internship project, City Shop, an eCommerce web application designed for local electronics stores to manage online product sales.
- Built product management modules using PHP and MySQL for mobiles, laptops, accessories, and TVs.
- Implemented functionality for store owners to add, update, and delete products, manage inventory, and track customer orders.
- Developed customer-facing features including product browsing, shopping cart, and checkout workflow.
- Designed admin panel modules for centralized website and order management.
- Assisted in testing and debugging to ensure stable application performance before deployment.
- Deployed and hosted the internship project on a cPanel hosting environment, gaining hands-on experience in web hosting and server management.

EDUCATION

Master of Computer Applications (MCA)

Shivaji University, Kolhapur — 2018

Bachelor of Computer Applications (BCA)

Shivaji University, Kolhapur — 2014

CERTIFICATIONS

- **CPP Training Certificate:** Spoken Tutorial Project, IIT Bombay.
- **Web Development Certification:** webdevelopmentcourse.in
- **Certificate of Publication:** National Conference
- **Android Technology:** Nice Computer Institute of Technology, Satara.
- **MS-CIT:** Akshay Computer Service, Satara.

ACADEMIC CONTRIBUTIONS & ACTIVITIES

- **Research Publication:** Evolution of Online Shopping — *Research Revolution, March 2018*
- **Seminars Presented:** E-Commerce, Software Estimation, Stack, and related topics
- **Workshops Attended:** PHP Technology, Android Technology
